

Keep Your Community Safe: Check for Vehicle Safety Recalls

RECALLS MATTER

Today, there are over 250,000 unrepaired vehicles on Tribal Nations with open safety recalls, including dangerous recalled airbags. Families may be at risk of serious injury or death while riding in a vehicle with an open safety recall. Despite ongoing efforts to reach vehicle owners, many are unaware their vehicle may have a dangerous recall.

FREE VEHICLE RECALL SEARCH

Your safety is our priority! An unsafe vehicle can be dangerous. Checking for a vehicle recall is easy and repairs are **FREE** even if you are not the registered owner. Follow these simple steps to see if your vehicle has a potentially dangerous vehicle recall.

1. **Check for recalls**

- Visit www.CheckToProtect.org
 - Enter vehicle license plate number or 17-character Vehicle Identification Number (VIN)
 - The VIN can be found located on the driver's side dashboard, inside the driver's side door, or on registration and insurance documents.

2. **Contact Dealership**- Utilize these resources above to locate the nearest vehicle dealership.

3. **Schedule and complete the vehicle repair.**

All repairs are FREE at local dealerships

Any vehicle, regardless of whether it was purchased at the dealership or brought in for general repairs and maintenance can be brought in to repair a recall.

SPREAD THE WORD

Social graphics, informational palm cards and reminder cards are available free of charge in both English and Spanish. Download these and other social assets from our online toolkit, thesocialpresskit.com/checktoprotect.

ABOUT CHECK TO PROTECT

Check To Protect, led by the National Safety Council, is a coordinated effort to raise awareness about vehicle safety recalls through a partnership with Fiat Chrysler Automobiles, Ford, General Motors, Toyota, Volvo, and other vehicle safety advocates. Visit www.CheckToProtect.org for more information.

For questions or to request resources, please contact ChecktoProtect@nsc.org.
